

# President & CEO

## Saskatchewan Institute of Applied Science and Technology

This is an extraordinary time of opportunity for SIAST. As the primary provider of skills training and technical education in a province enjoying unprecedented economic growth, SIAST is vital to Saskatchewan's current success and uniquely positioned to ensure its long-term prosperity. SIAST serves 26,000 distinct students at campuses in Saskatoon, Regina, Moose Jaw and Prince Albert, offering industry-responsive, relevant programming that touches every sector of the economy.

Reporting to the Board and working with a strong leadership team, you will bring your vision, innovation and resourcefulness to SIAST, building strategically and tactically on a climate of success. An exceptional communicator, negotiator and ambassador, you will cultivate and strengthen relationships with business, industry, government, educational partners and the diverse internal and external communities of SIAST, including First Nations and Métis communities.

Collaborative, responsive and entrepreneurial, you are experienced in leading complex organizations and have a deep understanding of the post-secondary education sector. Committed to student success, you are a passionate champion for the value of a college education. Here is your opportunity – to shape the future of SIAST, to drive innovation and to make your mark in the province of Saskatchewan.
